Cornici Porte e Finestre Preintonacate

Le cornici per Finestre sono realizzate in Polistirolo Espanso ad alta densità autoestinguente Classe E , sono rivestite con una speciale resina cementizia che le rende resistenti alle intemperie ed all'usura del tempo.
Sono degli elementi architettonici tipici che contribuiscono ad abbellire le facciate delle abitazioni , contriubuendo ad eliminare il ponte termico.
Si possono riprodurre fedelmente elementi esistenti o su disegno del cliente.
